6 – 10*	75lb Screw-type Hollow Wall Anchors

*Quantity based on width of board

elements Series Mounting Instructions

Framed Whiteboards, Chalkboards, Noticeboards and Glassboards

Notes on Installation:

1. ALWAYS anchor the wall mounted brackets into the structural framing (studs) whenever possible. DO NOT exceed recommended spacing between wall anchors.
2. The wall mounted brackets MUST be installed level and parallel to each other with accurate spacing to ensure a safe and proper installation. Always verify spacing by measuring distance between the brackets mounted to the back the glass board.
3. If the wall is not “flat” shims may be required between the wall mounted bracket and wall surface.
4. Place the rubber bumpers provided, equally spaced, between the brackets as shown to eliminate movement or “bounce” when using the writing surface.
5. As with all tempered glass, a strike to the edge of the glass will likely cause significant damage to the glass. Always use caution when handling tempered glass products.

Installation Note-IMPORTANT!!

For Direct Adhesive Mount- contact eisys for more information. Do Not mount until you get specific instructions from eisys.

WARNING: Danger if improperly installed. Installation must be done by a qualified professional. Check the suitability of the wall and ceiling, and make sure that the fastening devices will withstand the loads.

For disposal, the components should be divided by type of material if possible. In any case, this product can be recycled at a community recycling center.
