

eisys environmental statement

eisys, inc., is committed to doing business in an environmentally responsible and proactive manner. We feel this is consistent with our commitment to providing high quality products that minimize impact on the environment and part of being a responsible corporate citizen.

eisys aims to conserve natural resources and minimize waste through source reduction and recycling. We will dismantle and re-use or recycle our products that can be returned at the end of their service life. We pledge to handle and dispose of wastes through safe, environmentally responsible methods. We will encourage energy efficiency and the use or renewable energy sources.

Our European business partners and their suppliers have attained certifications in accordance with European Standards for forest product sustainability, material handling, air emissions and certification concerning packaging and packaging waste. They too are committed to doing business in an environmentally responsible manner.

Additional environmental documentation and LEED Information is available upon request by product group.

 Please consider the environment before printing this document.
