

e3™ Porcelain Enamel Steel Whiteboards & Chalkboards Fact Sheet

eisysVISUAL e3 Porcelain Enamel Whiteboards stand up to the rigors of both office and classroom. It's ability to outperform all other whiteboard surfaces has made it the most popular whiteboard and chalkboard surface in the world.

Typically 4 white surfaces are available (though only 3 are approved for North America):
Ultra Gloss – High Gloss – Satin Gloss (eisys Standard) – Low Gloss (not approved)

It's guaranteed to be scratch, stain and fade resistant. It delivers a consistently smooth writing experience and unmatched erasability.

e3 boards can be written on with dry-erase, semi-permanent, water-soluble or permanent marker, chalk, pen or crayon without damaging the surface.

e3 Porcelain Enamel Steel boards are 99.9% recyclable and is the only globally Cradle to Cradle Certified^{CM} Silver surface of its kind. It's safe and clean, and emits no harmful chemicals into the environment.
