

Column Boards

## Column Boards

design: Friis & Moltke

- > The Column Board from is designed to be ergonomically correct ensuring a healthy working posture.
- > Boards can be raised or lowered independently of each other, easily and silently on the robust and stable columns. Councealed mounting brackets and wires are hidden in the columns.
- > The Column Board can be manually operated. The system is totally modular and can be extended with additional columns and boards in front.
