

VIP Media Wall

VIP Media Wall

> The VIP Media Wall makes a dramatic presentation in any conference or office environment. The VIP Rail System and VIP Component Boards are the stylistic elements that make up the VIP Media Wall. Add your video display and you have a presentation system that can handle just about every type of media.

The VIP Rails are designed to mount directly to the wall. The 6cm wide aluminum profile creates a characteristic, unbroken horizontal line while at the same time keeping all boards and flip charts in order. Steel ball bearings are fitted inside the rails, making it easy to hang or take down loose sheets of paper without damage.

The VIP Component Boards come in glass (magnetic or non-magnetic), porcelain enamel white boards, notice boards in cloth or 100% recycled rubber, chalk or flip charts. These Component Boards hang and slide in the top track and create a 2 or 3 level presentation environment as well as hide the video display for dramatic effect.

Finish:

Anodized aluminum; various board finishes.

Varieties & Dimensions:

	Size Range	
VSK 01 Single Top Rail	36" w – 192" w	0.75" h
